Accessories

Features

Specifications

Panasonic Blu-ray drives are the industries first, fastest, and most compatible Blu-ray drives

- **Native SATA** technology advances beyond the bottleneck of IDE connections
- **8x Speed** on BD-R 25GB and 50GB media
- **Backwards compatibility** with all the most popular DVD and CD media formats, even DVD RAM discs

With the power of a Blu-ray burner comes the next generation of data storage technology. Able to burn 25GB on a single layer Blu-ray disc and up to 50GB on a double layer Blu-ray disc, the Panasonic SW-5584 has created a future for high density and secure computer and data storage including backup, high definition movies, photos and anything else you can imagine.
