Print Directly Onto Cookies & Confections!
Fast and Easy Operation

Eddie®, The Edible Ink Printer prints full-color photographs, logos, designs, and text directly onto the surface of many food items quickly and easily! The machine prints a dozen 3.5" (89mm) cookies, or other similar-sized items, in just two minutes. The carousel feeder rotates the cookies to the print position and the printer pulls in cookies one at a time, adjusts for the height of each cookie, prints, and sends them back to the carousel – all automatically and hands-free! Printed images are bright, vibrant, and color-matched to ICC Color Standards.

What can I print on?

Eddie prints on a variety of foods, including onto certain frostings or directly onto cookies, cupcake toppers, macarons, marshmallows, fondant, candies and more.

! No frosting sheets needed!

Applications

Eddie can produce new profits in commercial settings from bakeries to hotels to amusement parks! Print custom cookies and confections for:

- Birthday parties, baby showers, bar or bat mitzvahs, and more
- Trade show giveaways, meetings, and events – add company logo, for maximum impact!
- Wedding receptions, anniversaries, family celebrations
- Amusement Parks and Family Entertainment Centers - use Eddie to print custom images that commemorate guests' time at the facility

① NSF Certified
NSF certification means that Eddie has been tested and approved for use as an edible ink printer.

② Lights
Built-in blue and green colored lights turn on during printing and even blink.

③ Platform
The platform pulls in cookies one at a time, adjusts for the height of each cookie, prints, and sends them back to the carousel – all automatically and hands-free!

Food Industry Certifications

Eddie was designed from the beginning to meet or exceed all regulatory requirements as an edible ink printer. Eddie has been certified by NSF, a printer industry first. NSF certification assures owners and customers that the product has been tested and approved by one of the most highly regarded, independent organizations in existence today. The NSF mark is valued by consumers, manufacturers, retailers, and regulatory agencies worldwide.

Eddie's edible ink cartridge meets all FDA standards for use as a food additive. The ink cartridge itself meets cGMP standards and the entire manufacturing and cartridge filling processes are FDA-compliant and cGMP certified.

④

⑤

⑥

④ **Ink Cartridge**
The edible ink cartridge snaps into place in seconds.

⑤ **Carousel Tray**
Eddie includes a tray that will fit 2.5" – 4.35" (64mm - 111mm) round items.

⑥ **Print Resolution**
At 4800 dpi, images are sharp, detailed, and photo quality.
